

# BI1.5-EG08-RN6X-H1341 Inductive Sensor

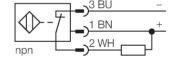

| Type                                      | BI1.5-EG08-RN6X-H1341                               |
|-------------------------------------------|-----------------------------------------------------|
| ID                                        | 4602309                                             |
| General data                              |                                                     |
| Rated switching distance                  | 1.5 mm                                              |
| Mounting conditions                       | Flush                                               |
| Secured operating distance                | ≤ (0.81 × Sn) mm                                    |
| Correction factors                        | St37 = 1; Al = 0.3; stainless steel = 0.7; Ms = 0.4 |
| Repeat accuracy                           | ≤ 2 % of full scale                                 |
| Hysteresis                                | 20 %                                                |
| Electrical data                           |                                                     |
| Operating voltage U <sub>B</sub>          | 1030 VDC                                            |
| Ripple U <sub>ss</sub>                    | ≤ 10 % U <sub>Bmax</sub>                            |
| DC rated operating current I <sub>e</sub> | ≤ 150 mA                                            |
| No-load current                           | ≤ 15 mA                                             |
| Residual current                          | ≤ 0.1 mA                                            |
| Isolation test voltage                    | 0.5 kV                                              |
| Short-circuit protection                  | yes/Cyclic                                          |
| Voltage drop at I <sub>e</sub>            | ≤ 1.8 V                                             |
| Wire break/reverse polarity protection    | yes/Complete                                        |
| Output function                           | 3-wire, NC contact, NPN                             |
| Switching frequency                       | 3 kHz                                               |
| Mechanical data                           |                                                     |
| Design                                    | Threaded barrel, M8 x 1                             |

#### **Features**

- ■M8 × 1 threaded barrel
- Stainless steel, 1.4305 (AISI 303)
- ■DC 3-wire, 10...30 VDC
- ■NC contact, NPN output
- ■M12 x 1 male connector

### Wiring diagram

# Functional principle

Inductive sensors detect metal objects contactless and wear-free. For this, they use a high-frequency electromagnetic AC field that interacts with the target. Inductive sensors generate this field via an RLC circuit with a ferrite coil.

# Technical data

| Dimensions                            | 59 mm                                      |
|---------------------------------------|--------------------------------------------|
| Housing material                      | Stainless steel, 1.4305 (AISI 303)         |
| Active area material                  | Plastic, PA6.6                             |
| Max. tightening torque of housing nut | 5 Nm                                       |
| Electrical connection                 | Connector, M12 × 1                         |
| Environmental conditions              |                                            |
| Ambient temperature                   | -25+70 °C                                  |
| Vibration resistance                  | 55 Hz (1 mm)                               |
| Shock resistance                      | 30 g (11 ms)                               |
| Protection class                      | IP67                                       |
| MTTF                                  | 2283 years acc. to SN 29500 (Ed. 99) 40 °C |
| Switching state                       | LED, Yellow                                |

# Mounting instructions

#### Mounting instructions/Description

| Distance D             | 2 x B   |
|------------------------|---------|
| Distance W             | 3 x Sn  |
| Distance T             | 3 x B   |
| Distance S             | 1.5 x B |
| Distance G             | 6 x Sn  |
| Diameter active area B | Ø 8 mm  |

## Accessories

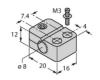

QM-08 6945100

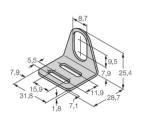

Quick-mount bracket with deadstop, chrome-plated brass, male thread M12 x 1. Note: The switching distance of proximity switches may be reduced through the use of quickmount brackets. BST-08B

6947210

Mounting clamp for threaded barrel sensors, with dead-stop; material:

MW08 6945008

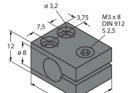

Mounting bracket for threaded barrel sensors; material: Stainless steel A2 1.4301 (AISI 304) BSS-08

6901322

Mounting clamp for smooth and threaded barrel sensors; material: Polypropylene

MBS80

Mounting clamp for smooth barrel sensors; mounting block material: Anodized aluminum

69479
