Textmodule for individual datasheets!!! Don't translate!!!	The 6-channel Ex junction box JBBS-49SC-E613/EX is designed for FOUNDATION™ fieldbus systems.
Textmodule for individual datasheets !!! Don't translate!!!	The junction box is equipped with an adjustable short-circuit current limiter. As maximum current limit, the following values can be selected together for all channels via a rotary coding switch: 30, 35, 45 and 60 mA.
Textmodule for individual datasheets!!! Don't translate!!!	The housing is made of powder-coated die-cast aluminium and is IP67 rated.
Textmodule for individual datasheets!!! Don't translate!!!	The junction box is equipped with an activatable terminating resistor for the bus. The switch is integrated in the housing on the board.
Textmodule for individual datasheets!!! Don't translate!!!	Condensation in the housing is prevented by a breather.
Textmodule for individual datasheets!!! Don't translate!!!	Shielding and housing can be connected directly via a second switch which is also located on the board.
Textmodule for individual datasheets !!! Don't translate!!!	Note: It must be ensured that there is sufficient equipotential bonding in the system. The device is connected to the equipotential bonding via the housing's M5 x 1 grounding bolt.
