

## FOUNDATION fieldbus IP67 junction box, 4-channel JBBS-49SC-M413/EX

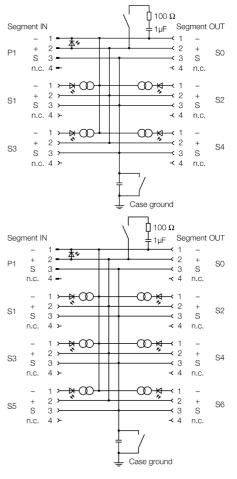

it, the following values can be selected together for all channels via a rotary coding switch: 30, 35, 45 and 60 mA.   Textmodule for individual datasheets!!! Don't translate!!! The housing is made of powder-coated die-cast alu minium and is IP67 rated.   Textmodule for individual datasheets!!! Don't translate!!! The junction box is equipped with an activatable ter minating resistor for the bus. The switch is integrated in the housing on the board.   Textmodule for individual datasheets!!! Don't translate!!! Condensation in the housing is prevented by a breather.	D	0011437
EX is designed for FOUNDATION™ fieldbus systems.   Textmodule for individual datasheets !!! Don't translate!!!   The junction box is equipped with an adjustable short-circuit current limiter. As maximum current limit, the following values can be selected together for all channels via a rotary coding switch: 30, 35, 45 and 60 mA.   Textmodule for individual datasheets!!! Don't translate!!! The housing is made of powder-coated die-cast alu minium and is IP67 rated.   Textmodule for individual datasheets!!! Don't translate!!! The junction box is equipped with an activatable ter minating resistor for the bus. The switch is integrated in the housing on the board.   Textmodule for individual datasheets!!! Don't translate!!! Condensation in the housing is prevented by a breather.   Textmodule for individual datasheets!!! Don't translate!!! Shielding and housing can be conceted directly via second switch which is also located on the board.   Textmodule for individual datasheets !!! Don't translate!!! Note: It must be ensured that there is sufficient equipotential bonding in the system. The device is connected to the equipotential bonding via the housing's M5 x 1 grounding bold.   Fieldbus standard IEC 61158-2   Operating voltage 1232 VDC   Current self-consumption 5 7 mA   Voltage drop 0.3V   Short-circuit protection ≤ 30, ≤ 35, ≤ 45, ≤ 60 mA

- Junction box for wall mounting with stainless steel 7/8" flange connections
- Short-circuit protection per drop line/spur
- Integrated terminating resistor (activatable)
- Cable shielding: Capacitive or direct connection to housing potential selectable via switch
- Isolated support terminal for optional protective conductor incorporated in cable
- Powder-coated die-cast aluminium housing
- Pressure compensation element protects against condensation
- Connection of the housing potential via M5 x 1 bolt
- Entity and FISCO compliant according to IEC 60079-11
