

Accessories

Actuation kit (puck)

BTS-DS20-TP1

- End position damped
- For clockwise or counter-clockwise rotating drives
- Displays rotatable by 90 °
- Hole pattern on receptacle surface 30 x 80 mm (30 x 130 mm)
- Connection shaft (shaft extension) height: 20 mm/Ø: max. 30 mm

General description

Dual sensors are especially designed for position detection in rotary actuators. They combine the reliability of non-contact inductive sensors with the flexibility of a modular housing system. A broad range of practice-oriented accessories ensure optimal adaption to your system.
