

Accessories

Smart Plug

PNP/NPN Converter

SPN1-AP6-ARN6X

- multifunctional adapter for connection to standard sensors
- Degree of protection IP67
- 4-pin M12 x 1, female connector
- 4-pin M12 x 1, male connector

Wiring Diagram

Functional principle

The SmartPlug Inverter SPN1-AP6-ARN6X inverts the signal of the connected sensor from pnp to npn. Additionally, the output function can be changed with the control line (NO/NC).

Type	SPN1-AP6-ARN6X
ID	A0624
Operating voltage U_s	10...30 VDC
Output function	4-wire
Insulation class	□
Dimensions	60 mm
Housing material	Plastic, PBTP
Ambient temperature	0...+60 °C
Protection class	IP67
