

LT26E-R16-S30LI0-EX-B1140/3A

Linear Position Sensor – Analog

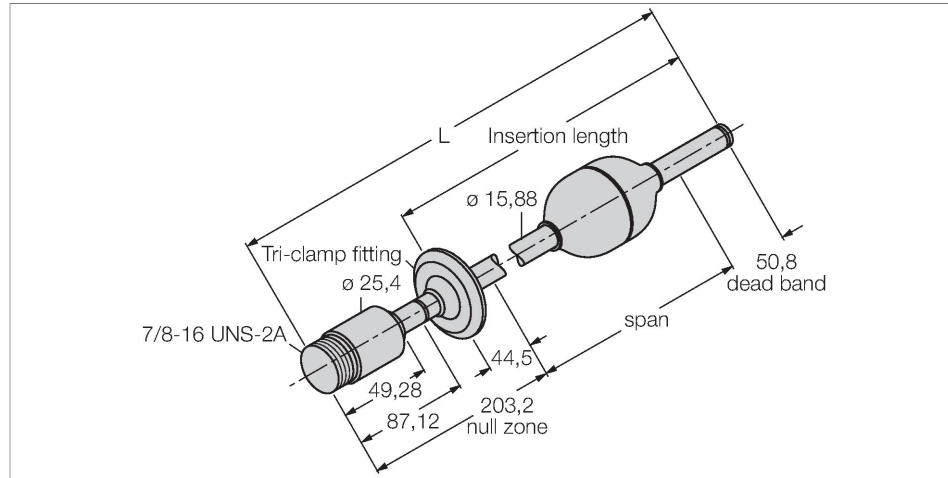

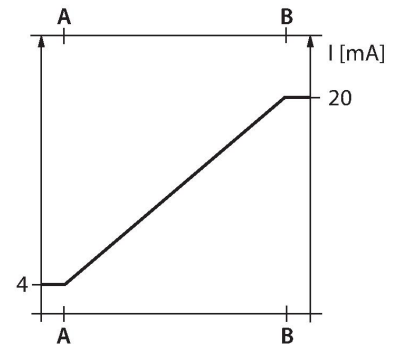

Features

13.5...30 VDC
Analog output, 4...20 mA
loop-powered

Wiring diagram

Functional principle

Technical data

Type	LT26E-R16-S30LI0-EX-B1140/3A
ID	LT0672
Measuring principle	Magnetostrictive
Resolution	0.025 % of full scale/0.014 in. (whichever value is greater)
Accuracy	0.1 % of full scale or 0.050 in
Repeatability	0.014 in + 0.05 % of full scale (typ.)
Operating voltage U_b	13.5...30 VDC
Output function	4-pin, Analog output
Current output	4...20 mA
Current consumption	loop-powered
Approvals	ATEX FM Div.1 FM Div.2
Flange Adapter	3 in. Tri-Clamp
Electrical connection	Connector, 7/8"
