TURCK

In Stock Products Sensors, Connectivity & Fieldbus

In-Stock Program

Get what you need - when you need it.

Readily Available Solutions

Faster delivery. Faster ROI. No extra charges.

Turck's In-Stock Program product offering provides a fast and easy way for you to order some of its most popular automation solutions and get what you need with much shorter lead times. We help take the hassle out of supply chain shortages so you can keep your machines and lines up and running for maximum throughput. You'll also reduce downtime when you stock up on frequently used spares.

It's all in stock and ready to ship - no extra charges on standard delivery of in-stock products. Get what you need - when you need it from Turck.

New products added frequently. No long wait times.

Choose from a wide range of solutions, including our rugged inductive sensors, widely used M12 connectivity solutions, and much more. We regularly monitor our inventory levels, adding new products to the In-Stock Program as they become available. Feel confident that hundreds of our products are available with the fastest lead times.

Check back often - if it says it is in stock, our team is ready to process your order.

GLOBAL SUPPORT

Sensors

As one of the world's leading suppliers of proximity, measurement, monitoring and position sensors, Turck has the products and expertise to help you find sensing solutions to solve the most challenging applications. Our extensive range of products includes proximity sensors based on inductive, capacitive, or magnetic principals of operation, along with ultrasonic, flow, linear and rotary position sensors designed for use in a wide variety of applications.

Our In-Stock product offering provides a faster and more efficient way to acquire some of the most commonly use sensing solutions that Turck offers. Sensor selection includes a range of housing sizes and styles, IP rating, sensing ranges and much more.

In-Stock Sensors Include:

- Inductive
- Magnetic
- Capacitive
- Flow
- Pressure
- Linear Position
- Rotary Position

Connectivity

Ensure a more reliable communication network with rugged and innovative connectivity solutions from Turck. Our cable, connectors, receptacles, splitters, tees, and junction boxes seamlessly tie together even the most complicated plants and machines. Turck offers an unparalleled breadth of connectivity solutions, combining high standards of quality and competitive pricing with a fast, flexible approach. Our extensive range of certifications allow our products to be used in more applications and in some of the toughest environments.

Turck's connectivity In-Stock Program includes a variety of signal and power offerings along with DeviceNet and Ethernet options, ensuring we have the correct solution on hand for all your connectivity needs.

In-Stock Connectivity Includes:

- M8 Picofast
- M12 Eurofast
- 7/8" Minifast
- M12 Eurofast Junction Boxes
- M23 Multifast
- Ethernet connectivity
- DeviceNet connectivity
- Valve plugs
- A-Size Powerfast
- D-Size Powerfast

Fieldbus Technology

Consolidate wiring and put machine control right where you want it with Turck. Our in-depth understanding of industrial networking products - along with a broad product offering - positions Turck as a leader within the industry.

Solutions are compatible with most major network protocols - including Ethernet/IP™, EtherCAT®, Modbus®TCP, Profinet®, AS-interface®, CANopen, DeviceNet™, PROFIBUS®-DP, PROFIBUS®-PA and FOUNDATION™ fieldbus.

In-Stock Fieldbus Technology Includes:

- Block I/O*
- IP67 Power Supplies*

*Not all variants may be available
